

Objective

The purpose of this program is to promote post-secondary education by helping the children of employees obtain a university degree or college diploma.

Number, Value and Duration of Scholarships

Up to twelve (12) scholarships at the bachelor degree level or at the diploma level.

For Canadian students: These scholarships are valued at \$2,500 CAD, available for one academic year.

For American students: These scholarships are valued at \$2,500 US, available for one academic year.

Eligibility

Eligible applicants must:

- be the dependent child of regular full-time Flynn employees who have completed one or more continuous years of service as of the application deadline date. Continuous service means employment with no breaks longer than 6 months. In the case where an employee has more than one dependent applying, only one dependent will be eligible to receive the scholarship. Dependent children are described as biological or legally adopted children, wards in legal guardianship and stepchildren;
- dependents of employees at the Director/Executive level and dependents of Shareholder employees are not eligible to apply;
- be planning to enter the first year or already be enrolled in a first bachelor or first diploma have a minimum cumulative average* of:
 - 60% (or equivalent) over the last three terms of available marks for applicants at the diploma level;
 - 70% (or equivalent) over the last three terms of available marks for applicants at the bachelor degree level;
 - Non-academic courses such as career or personal development related courses will not be considered.

*Universities Canada's policy on calculation of average has been developed in consultation with university and college admissions and financial aid officers from across the country. There is enormous diversity among the applicants for this scholarship program. The applicants come from different geographical regions and have reached various levels of studies. Furthermore, and of great significance, is the fact that grading systems differ among educational institutions. It is Universities Canada's policy to calculate the academic average of applicants so that it reflects an academically well-rounded individual, while recognizing the differences in programs of study. For this purpose, the most recent, followed by the highest available grades of four courses will be considered. In the case of high school transcripts, the following categories will be considered: Language, Social Sciences, Mathematics and Sciences. Six courses are chosen for each applicant, with no more than two in each category. If there are not enough available courses, the calculation of academic average may be based on four or five courses.

Eligible institutions:

- Canadian and American educational institutions which have recognized degree/diploma-granting powers, or their affiliates (e.g. universities, colleges/CEGEPs - technical diploma).

Field of Study/Program Requirements

- There are no restrictions on the program of study or discipline;
- Program must be of a minimum of two years in duration;
- University preparatory programs in any jurisdiction are not eligible (e.g. CEGEP -pre-university diploma).

Conditions / Restrictions

- Depending on the curriculum, an Applied Bachelor Program may be considered either as a university level program or a college level program;
- Students who have commenced their post-secondary studies in January are eligible for the summer competition of the same year;
- Students who have previously held a Flynn Scholarship may re-apply within the same category (i.e., bachelor degree or college diploma). However, they are not eligible to apply in the other category.

Selection Process

The pre-selection of candidates is made by a committee of Canadian university and college representatives chosen by SPC. Final selection of winners will be made by a Selection Committee from Flynn. Once complete, the selection committee's decision is irrevocable.

Evaluation criteria:

- Academic performance;
- Quality of the essay;
- Quality and relevance of the reference letters.

Preference will be given to candidates who have never won a Flynn Scholarship. Any change of program of study from the initial application form submitted to Universities Canada and the final offer of award from Flynn may affect the allocation of your award.

All applicants will receive confirmation by email of the results of the selection process, once available.

Successful Applicants

Successful applicants will receive confirmation of their scholarship in August. Recipients will be required to complete the online scholarship acceptance process and forward any required documentation such as proof of registration from the educational institution they will be attending. It is the responsibility of the recipient to keep SPC informed of any changes to their contact information through the online portal.

Payment

- Scholarship payment(s) will only be issued upon completion of the scholarship acceptance process and review and acceptance of all required supporting documentation by SPC;
- SPC will forward payment of the scholarship to the educational institution on behalf of Flynn;
- It is the student's responsibility to ensure that payment of tuition fees is made within the defined time frame set by the educational institution regardless of the timing of the scholarship payment;
- Payment by the institution to the student will be made in accordance with the normal practice of the educational institution.
- Note that, depending on method of payment, receipt of payment can take 6-8 weeks following the applicant's acceptance of the award.
